

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including:

KEEP OUT OF REACH OF CHILDREN!

READ ALL INSTRUCTIONS BEFORE USING

KEEP AWAY FROM WATER!

DANGER — As with most electrical appliances, parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:

- Always unplug immediately after using.
- Always turn off the iron when not in use.
- Do not use while bathing or in the shower.

- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquids.
- If the iron falls into water, unplug it immediately. Do not reach into the water.

HASSLE-FREE 1-YEAR WARRANTY

This warranty is available only to consumers who purchase products directly from BaBylissPRO or an authorized BaBylissPRO reseller. Except as otherwise required under applicable law, this warranty is not available to retailers or other commercial purchasers or owners or consumers who purchase from unauthorized BaBylissPRO resellers.

BaBylissPRO will repair or replace (at our option) your unit free of charge for 12 months from the date of purchase if the appliance is defective in workmanship or materials and was purchased directly from BaBylissPRO or an Authorized BaBylissPRO Reseller.

Your ultimate satisfaction in BaBylissPRO products is our goal so if your item should fail within the generous warranty period, we will repair it and or if necessary, replace it at no cost to you. To obtain a return shipping label email us at <https://babylisspro.com/warranty-page>. Or call our toll free customer service department at 800-326-6247 to speak with a representative.

In the absence of a purchase receipt, the warranty period shall be 12 months from the date of manufacture. **ANY IMPLIED WARRANTIES, OBLIGATIONS, OR LIABILITIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A**

WARNING — To reduce the risk of burns, electrocution, fire, or injury to persons:

- Plug the iron into an electrical outlet.
- The iron should never be left unattended when plugged in.
- Do not pull, twist, or wrap cord around the iron.
- This iron should not be used by, on, or near children or individuals with certain disabilities.
- Use the iron only for its intended use as described in this guide.
- Do not use attachments not recommended by the manufacturer.
- Never operate this iron if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged or has fallen into water. Return the appliance to a service center for examination and repair.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.
- Never use while sleeping.
- Never drop or insert any object into any opening or hole in the iron.

- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with the iron. Avoid multiple cables to a plug.
- The iron and casing are hot when in use. Do not let eyes and bare skin touch heated surfaces.
- Do not place the iron directly on any surface while it is hot or plugged in.
- Do not touch hot surfaces of the iron.
- This iron has no user-serviceable parts. Servicing should only be performed by an authorized service representative.
- Suitable for dry locations ONLY.
- While not in use, ensure the iron has completely cooled before being placed into any storage.
- Do not use this appliance near bathtubs, showers, toilets or any other receptacle containing water.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Children should be supervised to ensure that they do not play with the appliance.
- Before plugging in, read the information about dual voltage contained in the DUAL VOLTAGE section below.

SAVE THESE INSTRUCTIONS

OPERATING INSTRUCTIONS

This appliance is intended for professional or household use. Use on alternating current (50-60Hz) only. Standard appliances are designed to operate at 120-240V.

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

DUAL VOLTAGE

This flat iron has dual voltage. It will automatically adjust to the proper voltage. Use an adapter plug (not included) with correct configuration prior to use in outlet.

MEDIDAS DE SEGURIDAD IMPORTANTES

Al usar aparatos eléctricos, especialmente en presencia de niños, siempre se deben tomar precauciones básicas de seguridad, entre ellas las siguientes:

¡MANTÉNGALO FUERA DEL ALCANCE DE LOS NIÑOS!
LEA TODAS LAS INSTRUCCIONES ANTES DEL USO
¡MANTÉNGALO ALEJADO DEL AGUA!

PELIGRO — Como es el caso de la mayoría de los aparatos eléctricos, los componentes eléctricos de este aparato permanecen en tensión cuando está conectado, incluso si está apagado. Para reducir el riesgo de electrocución:

- Siempre desenchufe el aparato inmediatamente después del uso.
- Siempre apague el aparato cuando no esté en uso.
- No lo use en el baño o la ducha.

STRAIGHTENING BASICS

1. Plug the straightening iron into a standard electrical outlet (120-240V). It is not necessary to touch the iron with your hand to judge readiness.
2. Turn the power on. The iron will heat up very quickly to a maximum of 420°F.
3. Section dry hair evenly, and comb each section. Position the iron on the hair as far up as you want hair to be straightened, being careful not to let the iron touch the scalp. Close the iron with the hair between the two plates and gently pull the iron down to the end of the section of hair you are straightening. Repeat this process several times, if necessary. Let the hair cool before combing.

STYLING TIPS USING STRAIGHTENER

For short, spiky looks, use gel or spray and hold the sections up and away from the head while you straighten. **For smoothing and taming curly hair**, or creating a stylish, smooth bob, use the straightener just on the ends, leaving the hair wavy at the roots for lift and body. For this type of effect, keep the straightener moving while following the shape of your hairstyle. **For looser waves**, close and lock the iron and use it as a wand. Wrap hair around the front housing and hold for a few seconds to create a looser, free-flowing wave. **For tighter curls**, turn iron 180° (top-down) and start close to the

roots or wherever you want the curl to start. Lightly hold hair between plates and turn the iron as you move it down the strand. The slower the turn, the tighter the curl. Adjust the angle to create different types of curls. **For zigzag styles**, open the iron, wrap hair around plates/housing in a figure 8, hold for a few seconds and release. **For flip-and-bend waves**, turn the iron as you reach the end of hair strand — inward or outward — to create a flip, bend or more body. **For ideal results, use finishing sprays after styling, if desired.** Unprecedented performance, design, and versatility — the Prima2000® by BaBylissPRO®.

NANO TITANIUM™

Your Nano Titanium™ straightening iron has many benefits. Nano Titanium™ is an exceptional conductor of heat and is stable in ultra-high temperatures. The Nano Titanium™ plates combine the technology of microparticles of titanium, providing the ultimate heat performance for beautiful, healthy-looking hair. Nano Titanium™ yields maximum far-infrared heat, penetrating the hair from within for gentle straightening without damaging hair. Nano Titanium™ emits negative ions for faster straightening, locking in hair's own natural moisture. This Nano Titanium™ iron will give your hair a smooth, silky shine while eliminating frizz.

NOTICE

THIS PRODUCT IS EQUIPPED WITH AN INSTANT HEAT CIRCUITRY. STATE-OF-THE-ART TECHNOLOGY ALLOWS THE HEATER TO REACH THE OPERATING TEMPERATURE IN LESS THAN ONE MINUTE.

DO NOT LEAVE PRODUCT ON OR PLUGGED IN WHILE NOT IN USE. UNIT WILL BURN OUT IF POWER IS KEPT ON FOR AN EXTENDED PERIOD OF TIME. WARRANTY WILL BE VOIDED. TURN UNIT OFF AND UNPLUG WHEN NOT IN USE.

INSTRUCCIONES DE USO

Este aparato ha sido diseñado para uso profesional o doméstico. Úselo solamente con corriente alterna (50-60 Hz). Los aparatos estándares están diseñados para funcionar con corriente de 120-240 V.

El cable de este aparato cuenta con un enchufe polarizado (una pata es más ancha que la otra). Como medida de seguridad, aquel enchufe se podrá enchufar de una sola manera en las tomas de corriente polarizadas. Si el enchufe no entra en la toma de corriente, invértalo. Si aun así no entra completamente, comuníquese con un electricista. No intente modificar esta función de seguridad.

DOBLE VOLTAJE

Este aparato es de doble voltaje. Se adaptará automáticamente al voltaje adecuado. Nota: Puede que sea necesario usar un adaptador de viaje (no incluido).

FUNDAMENTOS DEL ALISADO

1. Enchufe el aparato en una toma de corriente de 120-240 V. No es necesario tocar las placas para cerciorarse de que está listo;
2. Encienda el aparato. Se calentará muy rápidamente, hasta un máximo de 420 °F (215 °C).

USER MAINTENANCE

Your iron is virtually maintenance free. No lubrication is needed. Keep all vents and openings clear of dirt and dust. If cleaning becomes necessary, disconnect the unit from the power source, let it cool and wipe exterior with a cloth. If any abnormal condition occurs, unplug the unit, allow it to cool, and return it for repair to an authorized service representative only. No repairs should be attempted by the consumer.

CAUTION

NEVER allow the power supply cord to be pulled or twisted. Never wrap the cord around the unit. Damage will occur at the high flex point of entry into the unit, causing it to rupture and short circuit. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.

STORAGE

When not in use, your appliance is easy to store. Allow unit to cool, then simply put back in the box, and store out of reach of children in a safe, dry location. Do not jerk or strain cord at plug connections.

WARNING: IF YOU THINK THE POWER IS OFF WHEN THE SWITCH IS OFF, YOU'RE WRONG.

KEEP AWAY FROM WATER

Everyone knows that electricity and water are a dangerous combination, but did you know that an electrical appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

ALWAYS UNPLUG SMALL APPLIANCES

serán los rizos. Ajuste el ángulo de la tenaza para crear distintos tipos de rizos. **Para conseguir ondas en forma de zigzag**, abra las placas y enrolle el cabello en forma de ocho alrededor de las placas/cubierta. Espere por unos segundos antes de soltar el cabello. **Para doblar las puntas**, gire la plancha hacia dentro o fuera al llegar a las mismas. Nota: También puede usar la misma técnica para dar cuerpo. **Para resultados óptimos, use un spray de acabado después del peinado si desea.** Rendimiento, diseño y versatilidad sin precedentes — la Prima2000® de BaBylissPRO®.

NANO TITANIUM™

Su plancha Nano Titanium™ brinda muchos beneficios. El Nano Titanium™ es un conductor térmico excepcional que mantiene la estabilidad en temperaturas ultra-altas. La tecnología del Nano Titanium™ usa microparticulas de cerámica y de titanio para lograr un rendimiento óptimo y dejar el cabello hermoso y resplandecientes de salud. El Nano Titanium™ genera máximo calor infrarrojo lejano, un calor suave que penetra en el tallo del pelo para alisar el cabello suavemente, sin dañarlo. El Nano Titanium™ también emite iones negativos, los cuales logran un alisado más rápido mientras conservan la hidratación del cabello. Este aparato dejará su cabello suave, sedoso y brillante, al mismo tiempo que eliminará el frizz.
